Big Cottonwood Community Council concerns with the National Conservation & Recreation Act

Transportation. The focus for canyon funding should be on transportation. Why is NCRA legislation being submitted before UDOT's proposals are presented in 2020? It's possible that the NCRA could complicate or delay efforts to provide needed transportation improvements.

Emergency Egress. As part of the transportation plan, an emergency egress for Big Cottonwood Canyon is essential.

Aerial Solutions. Transportation plans should allow for ANY transportation solutions, especially ones that provide an improved carbon footprint and public safety. Gondolas should be allowed in the mix of transportation possibilities.

Town of Brighton.

Why is the new town of Brighton not yet on the map?

Why is this bill being submitted before the town of Brighton is incorporated?

Our residents are enthusiastic and engaged. Any help with our concerns is appreciated.

Thank you,

Barbara Cameron

President, Big Cottonwood Community Council
